Subject: Reference
Hi Kailash,

Subject: Reference for IPACS for undertaking projects at the Cummins Engine Test Facility and Ngukurr Remote Power Station

Cummins is an American Fortune 500 corporation that designs, manufactures, and distributes engines, filtration, and power generation products.

IPACS Australia undertook several projects for Cummins Australia. Two key projects include

- Working with Cummins Engineers at our OEM diesel generator test facility in Adelaide
- Undertaking root cause analysis for our diesel gensets at the Ngukurr Remote Power Station in Northern Territory

IPACS Australia demonstrated capability in

- Working alongside Cummins Engineers at our generator test facility and at remote power stations
- Defining client's requirements and basic design and delivering the desired capability
- Delivering reports on the equipment condition

We are happy to provide this reference for IPACS Australia

Regards,

Cletus.F.Panakkal
